Failure to operate and maintain pretreatment (per day)		\$600	\$1,800	c,d,e	\$3,000	C,D,H
Use of dilution instead of treatment (per event)		\$600	\$1,800	c,d,e	\$3,000	H
Site Visit Violations						
Entry denial	Entry denied or revoked (per event)	\$3,000	\$3,000	c,d,e	\$3,000	H
	Records denied (per event)	\$3,000	\$3,000	c,d,e	\$3,000	H

Level II Penalty Criteria Definitions:

a Repeated violations of wastewater discharge limits, defined here as those in which sixty-six percent (66%) or more of all of the measurements taken during a three-month period exceed (by any magnitude) the daily maximum limit or the average limit for the same pollutant parameter.

b Thirty-three percent (33%) or more of all of the measurements for each pollutant parameter taken during a three-month period equal or exceed the product of the daily maximum limit or the average limit multiplied by the applicable magnitude factor (1.4 for BOD, TSS, fats, oil, and grease, and 1.2 for all pollutants except pH).

c No change or an increase in the magnitude of non-compliance for a given pollutant, or no change or an increase in the number of violations or non-compliance events after a Level I enforcement action and implementation of compliance measures.

d Failure to meet, within 60 days after the schedule date, a reporting, correction or application due date, or a compliance schedule milestone contained in a local control mechanism or enforcement order for starting construction, completing construction, or attaining final compliance.

e Continued non-compliance with the intent to impede or delay the implementation of the IPP and permitting requirements, as determined by the Control Authority.

**CITY OF REDMOND

FEE SCHEDULE
Effective July 1, 2023**

**TABLE 1-A
INDUSTRIAL WASTEWATER PRETREATMENT PROGRAM PENALTIES**

Level III Penalty & SNC Criteria Definitions (from 40 CFR 403.8(f)(2)(viii)):

A Chronic violations of wastewater discharge limits defined here as those in which sixty-six (66%) or more of all of the measurements taken during a six-month period exceed (by any magnitude) the daily maximum limit or the average limit for the same pollutant

B Technical Review Criteria (TRC) violations, defined here as those in which thirty-three percent (33%) or more of all of the measurements for each pollutant parameter taken during a six-month period equal or exceed the product of the daily maximum limit or the average limit multiplied by the applicable TRC (TRC=1.4 for BOD, TSS, fats, oil, and grease, and 1.2 for all other pollutants except pH)

C Any other violation of a pretreatment effluent limit (daily maximum or longer-term average) that the Control Authority determines has caused, alone or in combination with other discharges, interference or pass through (including endangering the health of POTW personnel or the general public).

D Any discharge of a pollutant that has caused imminent endangerment to human health, welfare or to the environment or has resulted in the POTW's exercise of its emergency authority under paragraph (f)(1)(vi)(B) of this section to halt or prevent such a discharge.

E Failure to meet, within 90 days after the schedule date, a compliance schedule milestone contained in a local control mechanism or enforcement order for starting construction, completing construction, or attaining final compliance.

F Failure to provide, within 30 days after the due date, required reports such as baseline monitoring reports, 90-day compliance reports, periodic self-monitoring reports, and reports on compliance with compliance schedules.

G Failure to accurately report non-compliance.

H Any other violation or group of violations which the Control Authority determines will adversely affect the operation or implementation of the local pretreatment program.
